

Automatic film applicators **ZAA2600.SW**

Linear abrasion tester for wet abrasion, scrub resistance, washability and crocking tests

User experience

The easy-to-use touchscreen with multi-language menu guidance saves you time in the laboratory and streamlines the entire testing process

Efficiency

Storage of various profile settings such as stroke length and number of cycles

Reliability

Modular and flexible design allow easy change of application

Processing Unit / Sensor

Material housing	Anodised aluminium
Weight	≈20 kg (≈44.1 lbs)
Display	Touchscreen 5.7" colour TFT (LCD), LED backlight, VGA resolution
Test Weight	Up to 4.5 kg (9.92 lbs) can be applied
Stroke Length	1 - 320 mm (0.04 - 12.60"), stepless adjustability
Stroke Speed	1 - 600 mm/s (0.04 - 23.62"/s) and up to 100 double strokes per minute respectively
Power supply	100 V - 240 V, 50 Hz - 60 Hz
Resolution	Resolution: 1 mm/s (0.04"/s)

SWISS  MADE

Present in +100 countries, we serve inspectors and engineers all over the world with the most comprehensive range of InspectionTech solutions, combining intuitive software and Swiss-manufactured sensors.
