PURE GOLD

ULTRALIGHT 3" LEAF – Model 1260 LF

The **Goldenrod 1260 LF** is the lightest weight 3" air shaft on the market, making it the perfect choice for light duty applications or drum winding.

This model was originally designed for the tape industry, and has since found wide success in other applications where low shaft weight is critical.

**0.25 pounds per inch of body -
INCREDIBLE!**

Key Features:

- External Bladder / Easy Maintenance
- Perfect for THIN-WALL cores
- Continuous Grip to end of leaf
- Aluminum Journals are fitted with replaceable hardened steel ends when possible
- Anodized Leaves / Body
- Weighs less than a typical LEAF shaft

Consider this Shaft if you are making:

- ✓ Tape
- ✓ Bubble Wrap
- ✓ Filter Membrane
- ✓ Single or Dual Drum Winding
