

600 & 700 Series

Hi Pressure Grease Pumps

RAASM 600 Series 50:1 & 700 Series 65:1 ratio grease pumps are high pressure medium output grease pumps suited to small and medium sized workshop dispensing installations and centralised grease lubrication systems.

Made in Italy

Series 600	50:1	1500g/min	62048	62095
Air inlet connection			F1/4" G	F1/4" G
Fluid outlet connection			F3/8" G	F3/8" G
Air working pressure			6-8 bar	6-8 bar
Ave. air consumption			330l/min	330l/min
Noise level			81 dB	81 dB
Max. air pressure			8 bar	8 bar
Drum size			20-30kg	180-220kg
Suction tube			30x480mm	30x940mm
Drum cover			65310	65600
Follower plate			66310	66590
Series 700	65:1	1900g/min	63048	63095
Air inlet connection			F1/4" G	F1/4" G
Fluid outlet connection			F3/8" G	F3/8" G
Air working pressure			6-8 bar	6-8 bar
Ave. air consumption			440l/min	440l/min
Noise level			81 dB	81 dB
Max. air pressure			8 bar	8 bar
Drum size			20-30kg	180-220kg
Suction tube			30x480mm	30x940mm
Drum cover			65310	65600
Follower plate			66310	66590
