

## BLOC-O-LIFT T

### | with especially flat spring characteristic curve

BLOC-O-LIFT T is the design of a gas spring with a particularly flat spring characteristic curve, providing an almost even force over the entire stroke. It provides precise, comfortable adjustment and locking of the application. BLOC-O-LIFT T stands out due to its compact design and can be mounted in any position. The actuation mechanism can be operated by hand or foot, via lever or Bowden cable.

The BLOC-O-LIFT T has been installed successfully in furniture, especially in single and double-column tables, desks, nightstands, or height-adjustable desk tops.

#### Specific advantage:

- Even force distribution over the entire stroke
- Compact design with a long stroke
